WORK EXPERIENCE

GRANT THORNTON LLP

New York, NY

Cyber Risk Associate – Cyber Defense Solutions

August 2020 - Present

- Deploy the Exabeam platform into 5 client environments and continually develop and modify configuration files (including parsers, event builders, and alert rules) using the Linux Command Line to optimize the platform
- Triage potential incidents using Exabeam Advanced Analytics in conjunction with logs found in the Exabeam Data Lake to determine whether there is an issue which requires escalation
- Communicate with teammates to determine and create Bash scripts that are used to automate different tasks
- Monitor Exabeam platform health and perform root cause analysis for performance issues that arise
- Perform detailed analysis of logs from third-party sources to enhance the Advanced Analytics engine's efficiency
- Launch Cloud Security Initiative company-wide to expand Grant Thornton's client base
- Support University Recruiting team across multiple campuses by vetting possible candidates through career fairs and networking sessions

Cyber Risk Advisory Intern – Data Protection and Privacy (San Francisco, CA)

June 2019 – August 2019

- Leveraged traditional identity and access management with team member to solve growing data privacy issues
- Collaborated with team to present to 5-star client partners listing solution offerings across service lines
- Explored the data privacy regulatory landscape to assist managers in creating data inventories and assessments
- Utilized Excel formulas to score client data inventory risks based on interview answers and possible impact
- Sanitized client documentation to send off to possible clients for examples of how Grant Thornton aids clients

NEULION INC.

Plainview, NY

Information Security Intern

May 2018 – August 2018

- Reported directly to Chief Security Officer to assist in updating company computer security configurations
- Developed and learned new skills alongside managers to be used within Linux
- Managed summer-long project with interns to add features to streaming application of NFL
